Mr Wong Chen Choy
Mr Lee of Lecom Sdn Bhd
Ms Lucy (task secretary)

The meeting started with the exchange of name cards between Suruhanjaya officials and JBEEA members.

MATTERS RAISED

JBEEA Chairman Mr Leong made a brief introduction to all present and explained that this meeting was arranged to clarify with Suruhanjaya on a Circular regarding the Courses that are no longer carried out by Suruhanjaya Tenaga.

As this subject is handled by Mr Wong Jiunn Shyong, he posed the questions to them.

Ir Idris explained that it is the directive from the Ministry that the changes are part of the Government's Transformation Plan (GTP).

Therefore, with effect from 1st July 2012, Suruhanjaya Tenaga (ST) will no longer conduct Wireman Courses (PW1, PW2, PW3, PW4) Cable Installations Courses and Low Voltage Chargeman Courses (AO, A1). Instead the participants will need to attend these Courses from the recognised Institutions that are listed in the website www@st.gov.my

The purpose for these courses to be conducted in the Institutions are to ensure that the participants will be truly competent, knowledgeable and qualified. Eventually, their works will be done efficiently and safely. This will encourage young students or give them an additional choice, who have just completed their secondary school to enrol in these Institutions as the Courses are in full time basis. However, part time Courses are also available for those who prefer so.

Ir. Idris further mentioned that with effect from year 2015 or 2016, ST will also no longer handle the Registration of Contractors except for individual competent persons ie. the issuance of 'Terhad' certificates only. Contractors registration will be done by CIDB.

However, ST will at the moment continue with the examination for Low Voltage A4-1 & A4-2 and Chargeman B0, B1 & B4 for High Tension, until further notice.

ST's duty will be to monitor the activities by these Institutions and to ensure that they comply to conditions that are set accordingly.

After the above clarification, Ir Idris offered to provide more information and dialogue with our Association if we require or request so.

JBEEA members thanked Ir. Idris for his explanation and his hospitality for this meeting. The meeting then adjourned for lunch provided by ST at the same premise.
